MATTAPOISETT SWIM MEET ENDS SEASON

The largest crowd of the season was on hand at the Mattapoisett Public Beach this past Sunday to witness the annual Water Carnival which concluded a successful season of swimming classes. The program was conducted by the swimming instructors, Albert Boucher and Jacqueline Gasse. Boys and girls of all age groups had a chance to show their progress in competition which was spirited.

The star of the show was Nancy Peck who won the mile swim for girls, the girls' diving contest and placed second in the girls' 100-yard event. Runner-up was Eddie Walsh who placed first in the boys' mile race and second in the boys' 100-yard swim.

The Patricia Walsh Memorial Award went this year to Gail Liberty. It was presented by Raymond A. Covill, a member of the Mattapoisett Lions Club. The Lions Club makes this award each year for cooperation and improvement at the beach during the season. Last season, two trophies were awarded. Gail's name will be engraved on a permanent plaque which hangs in the Mattapoisett Public Library.

Trophies for the first three winners of each race were awarded by Lester A. Crampton, chairman of the Board of Selectman, to the following: Girls' 25-yard swim; Maureen Duff, first;

"If a man takes no thought about what is distant, he may find sorrow near at hand."
The quotation above is centuries old, yet it's as true now as when first spoken. The prudent man today, however, can protect his future security through insurance, properly planned. May we be of service?

GAYLA MONAHAN MARRIED IN CONN.

Miss Gayla Monahan and Mr. David Wright of the University of Colorado, and a summer resident of Point Connett, were married Saturday, August 13th, in Darien, Conn. at the home of the bride's mother, Mrs. G. L. Lockwood. The bride is also the daughter of Mr. C. F. Monahan of Mattapoisett.

CRESCENT BEACH IMPROVEMENT ASSOCIATION NEWS

Some excitement was caused this week when a fire broke out on Tuesday at the cottage owned by Donald F. Brown of Waltham.

Credit should be given to the Mattapoisett Fire Department under Chief Bradley, who responded with four trucks and twelve men within seven minutes of the alarm. Damage to the cottage was estimated at $1000, plus some smoke damage to a $250 camera owned by Joseph Poelker of New York, occupant of the cottage. A safety note is in order here folks,-- if you have a defective appliance, a toaster in this case, and you know it,-- fix it pronto. No one knew about it in this case.

Returned to their winter homes are Mr. and Mrs. William Bevan, Mrs. Mildred M. Lyon and Mr. and Mrs. Willis Brown.

We hope you are refreshed by your stay here, and wishing you a happy and healthy winter. See you next year we hope.

For new or modernized heating systems, you can rely on a Weil-McLain Boiler for long life and low-cost operation. Here's why—

1. Rugged cast iron construction.
2. Back and forth fire travel—less heat waste.
3. Better combustion—more heat for your fuel dollar.
4. Domestic hot water from built-in heater—

EXCERPTS -RULES & REGULATIONS PERTAINING TO SUBDIVISIONS TOWN OF MATTAPOISETT, MASS.

RULES AND REGULATIONS

Section I

General Requirements

A. In approving subdivisions, the Planning Board, hereinafter called the Board, will require that the land shall be suitable for building without danger to health, that the proposed ways shall be suitably located to accommodate the prospective traffic and to afford adequate light, air and access, including access of fire fighting equipment, to buildings and be coordinated so as to compose a convenient system considering the prospective character of the development, and may require such provision of street development and utilities as in its opinion will justify the subdivision.

B. Dead-end streets, streets of less than forty (40) feet in width, will be approved only under exceptional circumstances. If dead-end streets are essential to the development of the area, suitable turn-arounds must be provided.

Specifications For Construction of Ways

C. Each way appearing on the plan shall be constructed and completed, in the manner required by the specifications, for its full length and to a width suitable for travel of not less than twenty-six (26) feet (hereinafter referred to as the roadway). The land comprising the balance of the full width of the way shall be shaped and shall conform accurately to a cross section which shall be designated by the Board.

D. The entire area of the way shall be cleared of all stumps, roots, brush and perishable material and all trees not intended to be preserved. Trees intended to be preserved shall be protected from injury by suitable boxes or fenders.

E. All loam and other unsuitable material shall be removed from the limits of the way to such depth as shall be required by the Highway Surveyor.

F. All work in excavations or embankments shall be brought accurately to subgrade of not less than eight (8) inches for the roadway and four (4) inches for the sidewalks.

G. All filling material in roadway and sidewalks shall be made of clean sand, gravel, cinders, furnace slag, broken stone or other suitable material approved by the Highway Surveyor. No perishable material shall be used for the making of street embankments.

H. Above subgrade and to finished grade good binding gravel free from an injurious amount of clay or vegetable matter and satisfactory to the Highway Surveyor shall be used except along the edges of the sidewalks where loam shall be placed. Both the roadway and sidewalks shall be thoroughly rolled in a manner satisfactory to the Highway Surveyor.

I. Catch basins shall be built in such locations as the Highway Surveyor shall indicate and shall be of the forms, materials and dimensions approved by the Highway Surveyor. Wherever necessary in the opinion of the Highway Surveyor catch basins may be required to be connected to permanent drainage outlets by suitable drains, or as modified by the Board.

J. All corners of intersecting streets shall be rounded in a manner satisfactory to the Highway Surveyor. Granite bounds or other permanent marks shall be set at such angles and curves as the Highway Surveyor shall direct.

Chamberlain and children and Heidi's brother and sister, Dickie and Barbara.

SALE FOR THE BLIND

Miss Amy Brewer, who has charge of the sale for the blind to be held in St. Gabriel's Parish House Tuesday, August 23rd, announces that all arrangements have been completed. The truck that delivers the merchandise throughout the state will arrive in Marion on Monday, August 22nd, with a crew to unload the items and help arrange the displays so that on Tuesday, the day of the sale, everything will be in order for this most interesting event.

The articles to be sold have all been made by the blind under professional supervision, and the money received for each article goes to the person who made it. The State receives nothing. This is a rare opportunity for you to help the blind help themselves.

The women of Marion have responded enthusiastically to the call for volunteers to act as sponsors and assist in selling. Those who will serve are Mrs. Henry C. Osborn, Mrs. Egbert A. Driscoll, Mrs. L. D. Somers, Mrs. Otis Snow, Mrs. Joseph M. Hitchcock, Mrs. Pierce Archer, Mrs. Albert R. Pierce, Mrs. W. C. Riddell, Mrs. C. J. Plumb, Miss Isabelle L. Cumming, Mrs. Samuel H.
